[ABOUT REINFORCE LAB]

WE BUILD THE SYSTEM THAT GETS A COMPANY FOUND, TRUSTED AND CHOSEN.

Reinforce Lab started in Tallinn, Estonia in 2020 as a full-service digital marketing agency. In 2021 we expanded to Bangladesh and built our team in Dhaka, and on 19 April 2022 we founded our company there.

Years of running search, content and marketing for clients showed us the same problem again and again: the work was split across separate tools, separate agencies and a lot of manual effort, and nobody connected the pieces. Today we connect the website, content and search visibility into one system and let AI take over the repetitive work, with a person checking what matters.

[AI GROWTH SYSTEMS]

ONE CONNECTED SYSTEM INSTEAD OF SEPARATE TACTICS.

An AI Growth System is built to do three jobs.

01

AUTOMATE OPERATIONS

AI workflows take over repetitive research, content and reporting work, with a person reviewing what matters.

02

IMPROVE SEARCH VISIBILITY

Technical SEO, content and AI search work help the right buyers find you, in Google and in AI answers.

03

INCREASE REVENUE

Visibility is connected to enquiries and pipeline, so success is counted in customers.

[FLAGSHIP PRODUCT]

Search Authority OS is our flagship AI system. It researches your market, verifies every claim against real evidence, produces high-value content, and monitors your visibility across Google and AI search, then improves over time.

SEARCH AUTHORITY OS

01	RESEARCH	Your market, buyers and competitors
02	VERIFY	Every claim against real evidence
03	WRITE	High-value content people search for
04	AUDIT	Quality checks before anything goes live
05	MONITOR	Visibility in Google and AI search

[HOW WE WORK]

IT STARTS WITH A DIAGNOSTIC, NOT A PROPOSAL.

01 · DIAGNOSTIC

The free Search Authority Diagnostic sets your real baseline and shows what to fix first.

02 · SCOPE AND PROPOSAL

A plan and price fitted to your goals. No template retainer.

03 · BUILD AND ONBOARD

The system is set up for your market, your buyers and your evidence sources.

04 · RUN AND IMPROVE

Work ships, performance is monitored, and the system is adjusted as results come in.

[THE NINE-STAGE METHOD BEHIND EVERY PROJECT]

01
DISCOVER
Audit search data, indexation, content and technical health.

02
PRESERVE
Protect every page that already earns traffic, links or trust.

03
ARCHITECT
Structure, URLs and internal links around how buyers search.

04
CONTENT
Evidence-led content for each stage of the buying journey.

05
AI SEARCH
Clear, consistent facts for AI answers as well as blue links.

06
BUILD
Pages, schema and automation to a written quality standard.

07
QA
Every page checked against that standard before it goes live.

08
LAUNCH
Redirects mapped and tested, URL by URL.

09
MONITOR
Track visibility, leads and revenue, and fix what the data shows.

[PRINCIPLES]

WHAT WE STAND BY.

Our founder is a pharmacist. In pharmaceuticals and healthcare a wrong claim can do harm, so evidence checking is built into how we write for every client.

Claims carry a source, conflicting sources are investigated, and anything unverified goes to a person before it is published.

01

EVIDENCE BEFORE CLAIMS

We cite our sources and never invent metrics, rankings or results, for our clients or for ourselves.

02

PRESERVE WHAT ALREADY WORKS

Pages that earn traffic, links or trust are protected before anything is redesigned, moved or merged.

03

ONE SYSTEM, NOT SEPARATE TACTICS

Website, content, search and automation are planned together so each one strengthens the others.

04

PEOPLE REVIEW THE AI

AI speeds up the work; a person checks what it produces before anything is published or delivered.

05

MEASURED ON BUSINESS RESULTS

We report enquiries, pipeline and revenue next to rankings and traffic.

06

YOU OWN THE WORK

Everything we produce for you is yours.
